

1) Acesse o site <https://giphy.com/>

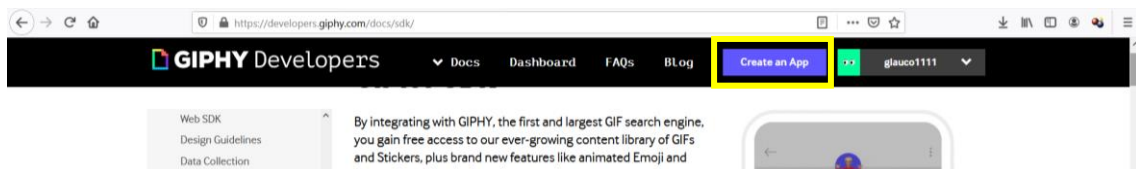

2) Faça seu registro e acesse a aba "Developers"

3) Clique no botão *Get Started*

4) Clique sobre o botão *Create App*

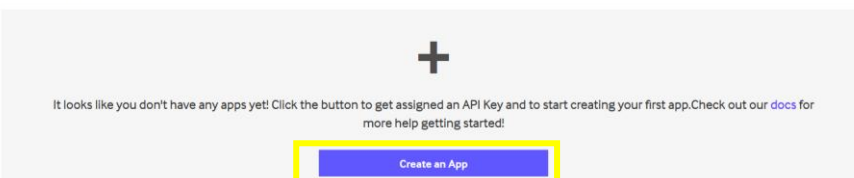

5) Clique novamente no botão *Create App*

Dashboard

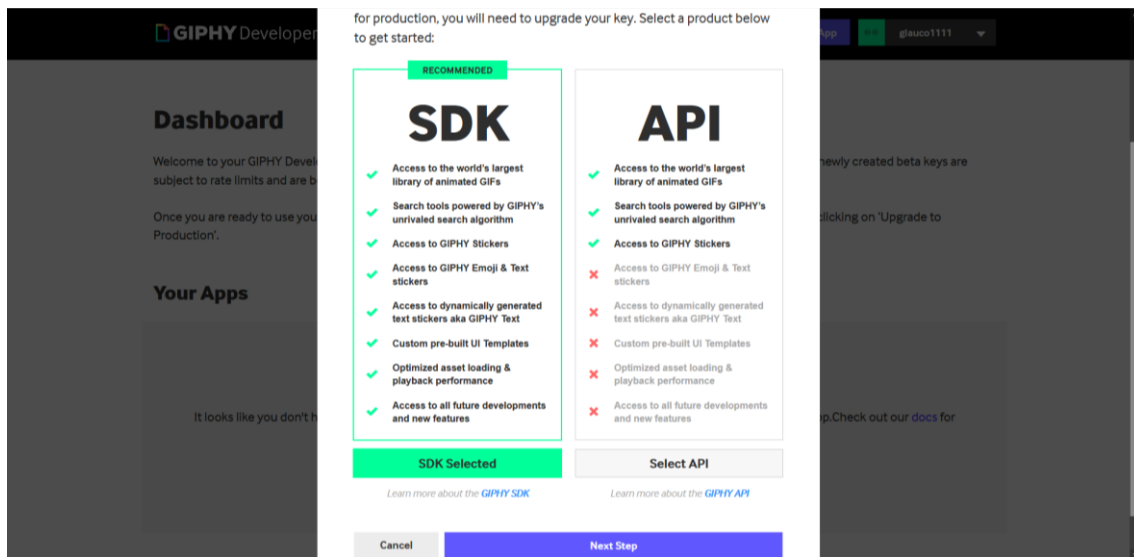

Welcome to your GIPHY Developer Dashboard. Get started by creating an app, where you will be assigned a beta API key. All newly created beta keys are subject to rate limits and are best used in a development environment.

Once you are ready to use your app in production, please verify your GIPHY integration, if needed, and upgrade your key by clicking on 'Upgrade to Production'.

Your Apps

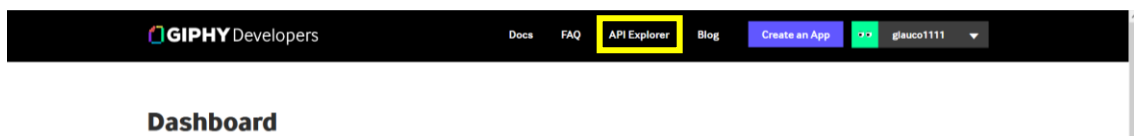

6) Selecione a opção *SDK Select*

7) Insira as informações do seu app e clique no botão *Create App*

The screenshot shows a modal window titled 'Create A New App 2/2'. It contains a form with the following fields: 'Your App Name' (a text input field with placeholder text 'Enter your app's name'), 'App Description' (a text area with placeholder text 'How will your app use your GIPHY key? (This can be changed later)'), and a checkbox labeled 'By checking this box, I am confirming that I have read & agree to the GIPHY SDK License Agreement'. At the bottom, there are 'Cancel' and 'Create App' buttons.

8) Copie a API Key apresentada nesta tela e em seguida selecione a opção *API Explorer*

9) Partindo desta tela você consegue os dados necessários para utilizar no app
